

Toddler Calendar

Classroom news:

Spring is finally here and with that comes unpredictable weather conditions. Please bring extra clothes for your child. Rain boots and splash pants are recommended for the wet weather and lots of extra socks. Don't forget to label all items.

Song of the month:

Rain go away

Rain rain go away
Come again another day
All the children want to play
Rain rain go away.

Important dates:

1st – Easter Monday (centre closed)
22nd – Earth Day

Skills we will be working on:

Washroom routines

We will be encouraging the children to pull down/up their pants and open the velcro on their diapers to remove them on their own (wet diapers only). Children that are showing interest in toilet learning will be guided to sit on the toilet and shown how to use it.

Did you know?

Physical activities are important for growth and development of children because it helps provide:

- healthy weight
- strong bones and muscles
- balance and flexibility
- posture
- relaxation
- self-esteem

With the warmer weather upon us, get out there and have some fun outdoors with your child.

How Does Learning Happen?

Well Being:

Toddler room educators are consistently discovering ways to encourage your child to develop self-care, sense of self and self-regulation skills by providing opportunities for children to freely explore their environment and gain confidence by doing it on their own!

Ideas for at home:

Consider making earth day activities at home with your child. Try things like planting, unplug electronics, have dinner by candle light, read books like The Lorax by Dr. Seuss, get gloves and garbage bags and clean up outside, reuse different garbage bound items to create art like bird feeders out of milk cartons or juice boxes.
