### Club of the Month:

This month the children have been having many socio-dramatic play with various roles amongst themselves. We will continue to add to their wonderful ideas from babysitting and selling groceries to being doctors or hairstylists. The ideas and different roles each of the share in is quite unique with their form of representation.

### Goal of the Month:

This month our classroom goal will be on Taking Another's Point of View. Helping everyone understand and appreciate different points of view is essential for social development. We can encourage this through open discussions about our feelings and perspectives. We will continue to support understanding the point of view of others and using this to regulate their own behaviour
