Toddler 2024 Calendar

Classroom News: Hello Families! Its November and Photo Day is up! Please save the date.

Special Visitors

- ✓ Ashley and Bernice will visit our Toddler Room once a week to sing a song, tell stories, and create different gross motor experiences for all the children.

Simple ways to Build Connections with your Child/ren:

- Be at the child's level for face-to-face interactions
- Use a pleasant, calm voice and simple language while making eye contact
- Provide warm, responsive physical contact
- Follow the child's lead and interest during play
- Help children understand your expectations by providing simple but clear explanations (not by directing)
- Take the time to engage children in the process of resolving problems and conflicts, rather than reiterating classroom rules
- When children's behavior is challenging and disruptive, think about where and how they might have more success and redirect them there
- Foster thoughtfulness and caring by listening to children and by encouraging them to listen to others and share ideas
- Be genuine in acknowledging children for their accomplishments and effort by clearly saying what it is they have done well
