### Club of the Month:

For this month our club will be exploring the roles and responsibilities of a train worker. The children will be enhancing their skills and using different equipment in the room to develop their ideas. They have been very creative by giving roles to each other during their play. We will continue to support these ideas by bringing in work attire, creating signs, and adding other materials to their activities.

### Goal of the Month:

This month our classroom goal will be on 3.6 Reading. This past month the children have shown an interest in reading books they got from the book fair as well as sharing interesting stories each other. We are going to work together in retelling what has been read to reinforce comprehension among the children.
