

From the Desk of Admin

Just a reminder to be sure and notify the centre if you are bringing your child after 10:00am. We always need to ensure that all children are accounted for as per our Safe Arrival Policy.

The Parent App continues to be a work in progress around the training aspect of it. Please know that the educators and admin are working to it is up and running in it's entirety soon.

This is the final month for kindergarten registration so if your child is eligible for kindergarten this September make sure this is in place.

If you have Valentine cards from your child's peers for Valentine's Day, please let the educators know. A gentle reminder that there **must not** be any food items brought into the centre due to extreme allergies.

Thank you ❤️

(How does learning happen?)

A Vision for Ontario's Early Years

Children's early experiences last a lifetime.

During our first years of life, the brain develops at an astounding rate. Scientists now know this process is not just genetic but is dramatically influenced by our early experiences with people and our surroundings.

While a child's principal sources for supportive relationships and learning experiences are at home, many Ontario children also attend childcare and child and family programs. Early years programs play an important role in supporting children's learning, development, health, and well-being. Evidence from diverse fields of study tells us that children grow in programs where adults are caring and responsive. Children succeed in programs that focus on active learning through exploration, play, and inquiry. Children thrive in programs where they and their families are valued as active participants and contributors.
