Club of the Month:

Calling all young builders!

Our Brain Flakes & Lego Club is the perfect place for school-age children to explore their creativity, build amazing creations, and enjoy new experiences with friends. Through fun challenges and imaginative play, children will explore cooperation and teamwork

while developing problem-solving skills and creativity. We're excited to see what our young builders will create together!

Goal of the Month:

This month, our classroom focus will be on 2.3 Self-Esteem.

It is important to acknowledge and celebrate each child's achievements to help promote a positive sense of self and build self-esteem. Through encouragement and everyday experiences, children will learn to recognize how special and unique they are while gaining confidence in their daily tasks and accomplishments.
