

From the Desk of Admin

Hello Summer!!

As we welcome new families joining the centre we would like to extend a heartfelt "see you later" to families that will be leaving us, it has been a wonderful journey, we wish you all the best.

Please remember to download the Parent App to stay connected and receive important information regarding your child(ren). You can also follow us on Instagram @terrytanbloordale.

Kindly note many educators will be taking vacation time over the summer months. Supply staff covering may request your identification to safely release your child upon pick up.

We hope that everyone has a safe and happy summer.

Board and Staff News

There will be no Board Meetings in the summer. A reminder that the Annual General Meeting will happen in September and Board Meetings the following months.

We would like to celebrate Christine and her family as they welcomed a baby girl last month.

Congratulations!!

Special Dates

July 1st – Canada Day
Centre Closed

August 3rd – Civic Holiday
Centre Closed

Summer Safety Tips:

- 1) Apply sunscreen, even on cloudy days. Take precaution if the UV/Air Quality are too high.
- 2) Dress young children in light coloured clothing. Cover their heads with a hat or something to reduce heat exposure.
- 3) Take precautions to avoid heat and sun overexposure between 11:00 and 3:00pm.
- 4) Never leave your child alone in a car for any amount of time.
- 5) Offer water every 20 mins during outdoor play and/or if the child says they are thirsty. Avoid sugary drinks!
- 6) Have children take frequent breaks in the shade.
- 7) Put bug repellent on your child's face by spraying it first in your hands and rubbing it on their face/s. Skin So Soft is a safer choice and works well to keep the bugs off too!
- 8) Closely watch your child in or near water. Children can drown in as little as 2 inches of water.
- 9) Make sure your child is wearing appropriate protective gear when riding a bike.
- 10) Check all playground equipment for any sharp edges, broken items or splintery wood. Make sure metal or plastic slides are not too hot to slide down as the sun can make it quite hot.

BE SURE TO HAVE FUN AND STAY SAFE!
